§ Scientific Course.  
 | Select Course.

**Requirements for Admission.**

Candidates for admission to the Classical Course are examined in the following studies:

1. English Grammar, Geography, and History of the United States.
2. Arithmetic, Algebra to equations of the second degree and Plane Geometry.
3. Harkness' Latin Grammar, Four books of Cæsar's Commentaries, Six books of Virgil's *Æneid*, Six select orations of Cicero, Sallust's *Cataline*, Sallust's *Jugurthine War*, or the *Eclogues* of Virgil, and Twelve chapters of Arnold's Latin Prose Composition.
4. \*Hadley's Greek Grammar, Three books of Xenophon's *Anabasis*, and One book of Homer's *Iliad*, with *Prosody*.
5. Classical Geography, Greek and Roman Antiquities.

Candidates for the Scientific Course are examined in the Requirements marked 1 and 2.

Candidates for an advanced standing are examined in the preparatory studies, and in all those that have been pursued by the class they wish to enter, or in studies that may be deemed equivalent. It is very important that candidates should be thoroughly prepared in the requirements for admission, especially in grammatical and elementary knowledge.

The regular examinations for admission to College, takes place on the Monday immediately preceding COMMENCEMENT, and the Wednesday before the beginning of the Fall Term. Students will, however, be examined at such other times as may be appointed, when application shall be made. Satisfactory testimonials of a good moral character will in all cases be required, and Students coming from other Colleges, must present certificates of regular dismission.

No Student can be received for less than one Term; and no one is permitted to enter the Senior Class later than the beginning of the third Term.

\* Instructors are requested to teach their pupils to pronounce Greek with the *Greek accents*, and with the so-called *Continental* sound of the vowels and diphthongs,—for example, giving a the sound of a in *father*, η that of a in *fate*, ι that of i in *machine*, ει that of ei in *height*, ου that of oo in *moon*, αυ that of ou in *house*.

**Rhetorical Exercises.**

The Senior and Junior Classes deliver original compositions before the College. The Sophomore and Freshman Classes have exercises in Declamation and Composition.

**Lectures.**

In the department of Intellectual and Moral Philosophy, lectures will be given on the History of Philosophy.

In the department of Mathematics, lectures will be delivered on Optics. The Telescope and other instruments will be used in connection with the study of Astronomy, and the Class in Surveying will have exercises in the field.

The Professor of Modern Languages will give familiar lectures on French and German Literature, in connection with the authors read.

The Professor of Ancient Languages will occasionally give familiar lectures upon the Antiquities, History and Literature of the Greeks and Romans.

A course of lectures will be given the first term upon Physics, and the second term upon General Chemistry.

In the School of Agricultural Chemistry lectures will be given the first and second terms.

**Books of Reference.**

## LATIN AND GREEK.

Zumpt's Latin Grammar,	Liddell and Scott's Greek Lexicon,
Ramshorn's or Döderlein's Latin Synonymes,	Goodwin's Greek Moods and Tenses,
Andrews' Latin Lexicon,	Winer's Grammar of the N. T. Diction,
Liddell's History of Rome,	Robinson's N. T. Lexicon,
Bojesen's Greek and Roman Antiquities,	Smith's History of Greece,
Becker's Gallus, and Becker's Charicles,	Long's or Findlay's Classical Atlas,
	Smith's Classical Dictionary.

## FRENCH AND GERMAN.

Spier and Surene's French Pronouncing Dictionary.	Adler's German Dictionary.
---	----------------------------

## HEBREW.

Green's Hebrew Grammar,	Robinson's Gesenius Hebrew Lexicon,
Hahn's Hebrew Bible.	

**Select Course.**

Students not intending to complete either the Classical or Scientific Course, may recite in such College Classes as their qualifications will permit. They may thus have opportunity to pursue an extended course of English study in connection with such languages of the College Course, as they may select.

They will be expected to attend such general exercises as may be assigned them, and to be subject to the general rules of the College.

**School of Agricultural Chemistry.**

In this School are taught the applications of Chemistry to Agriculture. Instruction is given by means of text books, lectures and experimental practice in the laboratory. Students will derive important advantage from a previous acquaintance with General Chemistry, yet this is not made a requirement for admission.

It will be the constant aim, not only to cultivate in the student habits of critical observation by the actual examination and analysis of soils, fertilizers, and agricultural products in the laboratory, but also to train him in the best methods of conducting independent experiments in the field, as the fruitful source of improvement and success in agricultural pursuits.

This school is open to all whose previous studies will enable them advantageously to pursue the course. A fee of three dollars is required to defray the expense of materials used by the students in the laboratory.

**Expenses.**

## TUITION.

Perpetual scholarships, securing free tuition, may be procured for one hundred dollars. No scholarship is available until the conditions of the scholarship note are complied with. Certificates of claim, in all cases, must be presented during the first week of each term.

Twenty scholarships have been placed at the disposal of the Superintendent of Public Instruction of the State. An order from him entitles the holder to all the privileges granted to the proprietors of scholarships.

The Treasurer has at his disposal a considerable number of Scholarships, the benefit of which various benevolent friends have given to the Institution, and which may be obtained at his office for seven dollars per annum, or at that rate per term. The charge for tuition to those not having scholarships is eight dollars fifty cents per term.

There is an additional charge of one dollar for each course of Lectures in Physics and Chemistry.

## INCIDENTALS.

A charge of three dollars a term is made for Incidentals, and for the use of the Library.

For every private examination a fee of one dollar will be charged, to be appropriated to the improvement of the Library and Apparatus.

All College bills are payable at the beginning of the Term, and no Degree will be conferred, nor will any student receive a regular dismissal from the College until all College dues are secured.

**Discipline.**

The government of the College is designed to secure attention to study and correct deportment; not so much by enforcing rigid enactments, as by cultivating in the student a taste for intellectual pursuits. No student who indulges in gaming, intemperance, or other vices, no one who is frequently absent from his room at night, or who habitually neglects his studies, can be allowed to remain a member of the College.

**Merit Roll.**

A daily account of the attendance, scholarship and conduct of every student is kept. The result, determining his place on the Merit Roll, is entered at the close of each term on the Records of the College. A report of the standing and demeanor of students will be sent to their parents or guardians when requested.

**Public Worship.**

Prayers are attended daily in the College Chapel. All students are also required to attend public service on the Sabbath; in the morning at one of the churches in the village, and in the afternoon at the College Chapel.

**Examinations.**

At the close of each Term, the classes are examined in the studies of the Term by a Committee appointed for that purpose. Students claiming to have pursued any part or parts of our course of study, independent of our instructions, are required to be examined on such studies, in the presence of the Faculty.

**Degrees.**

The Degree of Bachelor of Arts is conferred on all students who have completed the Classical Course, and sustained a satisfactory examination on every part thereof.

The Degree of Bachelor of Science is conferred on all students who give satisfactory evidence of the completion of the Scientific Course.

The Degree of Master of Arts is conferred on every Bachelor of Arts of three years standing, who, in the interval has sustained a good moral character.

Applications should be made to the Secretary of the Faculty at least two weeks before Commencement.

**Prizes.**

The President's prize is annually awarded to that gentleman of the Freshman class, who, in the judgment of the Examining Committee and Conference Visitors present, shall excel in Declamation.

This prize was last year awarded to Oscar A. Houghton.

Liberal friends it is hoped, will make provision for other prizes.

**Libraries.**

The libraries of the College and the literary societies contain an aggregate of about five thousand volumes, and additions are annually made.

**Cabinets.**

The Geological and Mineralogical and Zoölogical Cabinets contain a valuable collection of rare and beautiful specimens, illustrative of the various departments of Natural Science. The friends of the College are invited to send to these Cabinets such specimens as may add to their completeness and value.

*Apparatus.*

The Chemical and Philosophical Apparatus is of the most approved construction, and together with the charts and diagrams affords the means of a wide range of experimental illustration. The Laboratory is well supplied with the necessary chemicals and appliances, and during the past year has been enlarged; additions have also been made to the apparatus with special reference to the School of Agricultural Chemistry. There is a superior Telescope, a Transit Instrument, an Astronomical Clock, &c., for the department of Astronomy: and there are all the needful instruments for field exercises in surveying.

*Societies.*

The Aletheon, the Atticæum and Adelpian are public Literary Societies, furnishing ample facilities for improvement in composition, public speaking and parliamentary usage. Each society has its room and library, and holds a public literary exercise each term in the College Hall.

Students of the College are not allowed to be acting members of Literary Societies, which are not connected with the College.
