

Arthur Gerber

September 16, 1919.

Dean Hugh P. Baker,
New York State College of Forestry,
Syracuse University, Syracuse, N.Y.

My dear Sir:

In reply to your letter of the 11th relative to Arthur C. Gerber I would say that Mr. Gerber is probably able to do college work successfully though I feel he should have another year of high school preparation before entering. He did not have work previous to his three years with us. You can see by the fact that he has accomplished more than three years work that he is an earnest student. I judge that his desire to enter college now is largely due to his effort to save money which is more a matter of business sagacity with him than financial necessity. He has spent a year in service having been in the A.E.F. I shall be pleased to give you any further information you may wish.

With all good wishes, I am,

Sincerely yours,

EDS/v.
