September 15, 1919.

Dear Doctor Shepard:

This afternoon after returning from a short trip to Buffalo I received your letter with the certificate enclosed. It was very thoughtless of me not to stamp the letter that was sent to you but I had sort of gotten out of the habit. It was very kind of you to go to the trouble of looking up those credentials and sending them to me and I thank you very much for it. Much as I would like to return and spend another year at Lima I am afraid it will be impossible as I have made other plans for the coming year.

E. J. SCHEER

ROCHESTER, N. Y.

Doctor Baker of Syracuse wrote and said that he had received a statement of my credits from you. He says that I lack one point from fulfilling the entrance requirements. I think that the discrepancy is in English. Your statement gives me credit for three years of English while I really have four having <sup>had</sup> English I in East High here in Rochester.

Thanking you again for your kindness toward me and wishing you the best of success, I remain

Respectfully yours,  
Arthur C. Gerber.
