## Requisites for Admission.

CANDIDATES for admission to the Freshman Class are examined in the following studies:

1. English Grammar, Geography, and Willson's Outlines of History.
2. Arithmetic, and Algebra through Quadratic Equations.
3. Latin Reader or Eclogæ Ciceronianæ in Hanson's Latin Prose Book, four books of Cæsar's Com., six books of Virgil's Æneid and the Eclogues, Cicero's Select Orations, Sallust's Cataline, and twelve chapters of Arnold's Prose Composition. Hanson's Latin Preparatory Books are recommended.
4. Hadley's Greek Grammar, three books of Xenophon's Anabasis, and one book of Homer's Iliad.

Candidates for the Scientific Course are examined in all the studies named above, excepting the Latin and Greek Languages.

Candidates for an advanced standing are examined in the preparatory studies, and in all those that have been pursued by the class they wish to enter, or in studies that may be deemed equivalent. It is very important that candidates should be thoroughly prepared in the requisites for admission, especially in grammatical and elementary knowledge. If they have more time than is required for such a preparation, it is desired, for obvious reasons, that they should not anticipate the books read in College, but direct their attention to other authors.

The regular examinations for admission to College, take place on the Monday immediately preceding COMMENCEMENT, and the Wednesday before the beginning of the Fall Term. Students will, however, be examined at such other times as may be appointed, when application shall be made. Satisfactory testimonials of a good moral character will in all cases be required, and Students coming from other Colleges, must present certificates of regular dismissal.

No Student can be received for less than one Term: and no one is permitted to enter the Senior Class later than the beginning of the third Term.

## Expenses.

Perpetual Scholarships, securing free tuition, may be procured for One Hundred Dollars. No scholarship is available until the conditions of the scholarship note are complied with. Certificates of claim, in all cases, must be presented during the first week of each Term.

The charge for tuition to those not having scholarships is \$8.50 per Term. There is an additional charge of one dollar for each course of Lectures in Physics and Chemistry. A charge of three dollars a term is also made for Incidentals, and for the use of the Library. The price of Board varies from \$3.75 to \$4.00 per week.

Twenty scholarships have been placed at the disposal of the Superintendent of Public Instruction of the State. An order from him entitles the holder to all the privileges granted to the proprietors of scholarships.

The Treasurer has at his disposal a considerable number of scholarships, the benefit of which various benevolent friends have given to the Institution, and which may be obtained at his office for seven dollars per annum, or at that rate per term.

## Term Bills.

All College bills are payable at the beginning of the Term, and no student will receive a regular dismissal from the College until the bills for the current Term have been settled. Moneys deposited in any solvent Bank of the State, to the credit of the Treasurer, and payable to his order, in payment of subscription notes, or other dues, will be promptly acknowledged on the receipt of the certificate of such deposits.

## Discipline.

The government of the College is designed to secure attention to study and correctness of deportment; not so much by enforcing rigid enactments, as by cultivating in the student a taste for intellectual pursuits. No student who indulges in gaming, intemperance, or other vices, no one who is frequently absent from his room at night, or who habitually neglects his studies, can be allowed to remain a member of the College.

## Public Worship.

Prayers, with the reading of the Scriptures, are attended daily in the College Chapel. All students are also required to attend Public Worship on the Sabbath; in the morning at one of the churches in the village, and in the afternoon in the College Chapel.

## Merit Roll.

An account of the daily attendance, scholarship, conduct and delinquencies of every student is kept. The result, determining his place on the Merit Roll, is entered at the close of each Term on the Records of the College. A report of the standing and demeanor of students will be sent to parents and guardians when requested.

## Examinations.

At the close of every Term, each class is examined in the studies of the Term by a Committee appointed for that purpose. Students claiming to have pursued any part or parts of our course of study, independent of our instructions, are required to be examined on said studies, in the presence of the Faculty, and for every such private examination a fee of one dollar will be charged, to be appropriated to the improvement of the Library and Apparatus.

## Degrees.

The Degree of Bachelor of Arts is conferred on all students who have completed the College Course, and sustained a satisfactory examination on every part thereof.

The Degree of Bachelor of Science is conferred on all students who give satisfactory evidence of the completion of the Scientific Course. No degree will be conferred unless all College dues are secured.

The Degree of Master of Arts is conferred on every Bachelor of Arts of three years standing, who, in the interval, has sustained a good moral

character. Application should be made personally, or by letter, at least two weeks before commencement.

The fee, including the Diploma, in each case, is five dollars, payable in advance.

---

#### Prizes.

The President's prize is annually awarded to that gentleman of the Freshman class, who in the judgment of the Examining Committee and Conference Visitors present shall excel in Declamation.

This prize was last year awarded to Miles Gaylord Bullock. Liberal friends it is hoped, will make provision for other prizes.

---

#### Libraries.

The Libraries of the College and the two literary societies contain an aggregate of about five thousand volumes. All students are entitled to the use of the College Library, for which a fee of fifty cents per term is charged to each, and from this fund additions are constantly being made to the library.

---

#### Cabinets.

The Geological, Mineralogical and Zoological Cabinets contain a valuable collection of rare and beautiful specimens, illustrative of the various departments of Natural Science. The friends of the College are invited to send to these Cabinets such specimens as may add to their completeness and value.

---

#### Apparatus.

The Chemical, Philosophical and Electrical Apparatus is of the most approved construction, and together with the charts and diagrams affords the means of a wide range of experimental illustration. The Laboratory is well supplied with the necessary chemicals and appliances.

There is a fine Telescope, a Transit instrument, an Astronomical Clock, &c., for the department of Astronomy; we have also all the needful instruments for field exercises in surveying.

#### Societies.

The Aletheon and the Atticæum are the only Literary Societies authorized by the College among the gentlemen, but they furnish ample facilities for improvement in composition, public speaking and parliamentary usage. Each Society has its own room and library, and is permitted one public exercise each term in the College Hall.

The Adelpian is an interesting and successful Literary Society, sustained by the ladies of the College.

Students of the College are not allowed to be acting members of Literary Societies not connected with the College.

Increased facilities have been recently provided for a course of instruction in Object Drawing, and pupils are encouraged to study, and represent characteristics, both of single objects and natural scenery.

Effort is made to lead them to pursue the study of Art with high motives, seeking it for its own sake, and for the development of mind and heart, rather than simply to secure parlor ornaments of questionable value.

## COMMERCIAL DEPARTMENT.

To meet the growing demand in the minds of the community for a Business Education, a new and complete course of instruction has been organized, including Book Keeping in all its various forms and applications to business, Penmanship, Commercial Calculations, Business Forms, Mercantile Correspondence, Detecting Counterfeit Money, and other collateral branches. The instruction is fully as thorough as that of our best Commercial Colleges, and the advantages students may derive from it are invaluable.

## Full Business Course.

The following are some of the characteristics of the Course: Twenty-six different sets of Books are prepared in manuscript, embracing both Single and Double Entry, as practically applied to all kinds of trade, Wholesale and Retail Merchandising, Commission, Joint Stock Companies, Executors' Books, Mining, Manufacturing, Jobbing, Banking, Brokerage, &c.

Great care is taken to give the student a clear idea of the Analysis and Classification of Accounts, the Opening and Closing of Books, the Law of Promissory Notes, Drafts, Bills of Exchange, &c., matters of vital importance in Book Keeping.

## Penmanship.

The celebrated Spencerian System of semi-angular Penmanship, is taught by a series of movement exercises, calculated to develop the whole of a person's powers for writing, making ready and efficient penmen in the shortest possible time.

## Counterfeit Money.

The student is made familiar with those special features and beautiful devices which form the *standard of excellence* of all genuine bank notes, and with which the best counterfeits will fail in comparison, and thus, by care and attention, is enabled, unmistakably, to detect the bad from the good.

Students can enter the Department at any time, as each receive separate instruction. By close application, the Course can be completed in one term.

## TEACHERS' DEPARTMENT.

This Department is designed to fit young ladies and gentlemen expressly and thoroughly for the work of teaching common and other Schools. It is under the supervision of a single Professor, who has all the facilities necessary for a thorough accomplishment of this important object. Its labors are performed by recitations and lectures on all the topics, theoretical and practical, necessary to a mastery of this profession. The department has hitherto been abundantly successful, having sent forth more School Teachers than any other similar institution in the country.

## CABINET.

The Cabinet of mineralogical and geological specimens embraces an ample collection of rocks, soils, &c., &c., including a full suit received from the State, and it is deemed quite equal to the wants of the students pursuing these branches.

Students of the Seminary also have access at stated times, to the extensive Cabinet of Natural History in Genesee College.

## LIBRARIES.

The Libraries belonging to the Institution contain about 4,000 volumes. Students can have access to the Seminary Library by paying a small sum per term.

Connected with the Amphictyon Association and Genesee Lyceum, is a Union Reading Room furnished with various Journals and Reviews, accessible to the students by the payment of a small fee each term.

The Philharmonic Society, though not connected with any of the regular Departments of the Institutions, is now fully established with about one hundred performing members. Its object is "the cultivation of music, sacred and secular, for mutual pleasure and improvement," and affords an excellent opportunity, for those who can render plain Church Music readily, to keep in vocal practice. The Society now has a Musical Library of nearly 500 volumes.

## NOTE TO PARENTS AND GUARDIANS.

It is *earnestly advised* that all moneys for the use of such students as are minors, be deposited with some officer of the Seminary; and that no expenditure be allowed, except under the direction of such officer. Parents who understand the *importance* of this advice, will not neglect it. *The Officers will not feel responsible for evil habits acquired by younger students in consequence of a neglect to heed this suggestion.*

## LOCATION, ETC.

This Institution is located in the most healthy and beautiful portion of Western New York, in the midst of one of the most productive and thriving farming regions of the State. It is easy of access, being only eighteen miles from Rochester, with which it is connected by a good road, and only four miles from the New York Central Railroad, Honeoye Falls Station. It is also within seven miles of the Buffalo and Corning and Genesee Valley Branch of the Erie Railroads, Avon Springs Station. We thus enjoy the advantages of Railroads, without the disadvantages, which they would occasion to a school like ours, if passing through the place.

While the Institution is decidedly unsectarian, the utmost attention will be paid to the moral and religious welfare of the students. We record, with gratitude, that these exertions have, with the blessing of God, been highly successful.

It is very desirable that students should be here to enter classes at the beginning of the term; otherwise they will find themselves so far behind as to be greatly embarrassed.
